The Next Wave

- Are Victoria's excellent outcomes for cancer patients a result of good luck or good management?
- What's on the next wave of immunotherapy research?
- How can new digital and AI technologies be used to empower patients and improve outcomes?

These are just some of the big questions our line-up of national and international speakers will be tackling at the VCCC Research Conference 2019.

Speakers include:
- Professor Doug Hanahan, Swiss Federal Institute of Technology, Lausanne, Switzerland
- Professor Steve Baylin, Johns Hopkins University, Baltimore, USA

Registration now open
Early bird prices available until Tuesday 16 July 2019.
